Release Notes:

After his last years "Birds Over Hong Kong EP" Insect O. takes us on a musical journey to Down Under this time.

The title track "Bondi Dub" offers a smooth groove laying in an ocean of delayed chords. An acid line gives this 11 minutes piece of music the final touch. You can dance with your feeds in the sand or just sit on the beach and watch the sunset. Is this surf techno? Yes, maybe.

With "Rokk Hampton" the b-side starts more powerful and brings you a straight techno beat with filtered synth chords. It shows a more energetic and oldschoolish side of Insect O.'s work in a modern form. The last track "Sands Of Rainbow" sounds like the colored sands of Rainbow Beach. Melodies are stabled with echoes and a deep groove to a colorful sound structure. With this track the journey ends and makes this ETUI release to another outstanding record in the world of dubby techno.

ETUULTD004 Insect O. "Bondi Dub" will be out in June 2013 on blue/black marbled vinyl.
