HIKE: Cristal clear lakes, impressive mountains, soothing forests and Berlin Techno music.

The National Park of Saxon Switzerland in eastern Germany, south-east of Dresden offers endless ways to have a great hiking journey. The 93km region between Pirna and the Czech border is one of the most beautiful landscapes in Europe. More than 700 summits are available to rock climbers, while for those who prefer to keep their feet on the ground, there are 400 km² of marked hiking-trails, steep treks, paths and some cycle routes through the National Park. In this area, called the Erz mountains, we found our beautiful cover stone with a typical Ore layer inside.
