Release Notes:

This is the debut release on Noir Music from Brazilian K.A.L.I.L.
We have been working quite some time to perfect this first release from him on the label and give it the edge needed to stand out.
After tons of road-testing and going back and forth with production ideas I am now happy to have 2 perfect tracks ready from K.A.L.I.L. that really showcase his super solid techno sound and production flair.
Involved (co-produced with Any Mello) is a quite simple trip with Any's spoken word in center of industrial elements wobbling it and out.
This track works really well in the clubs because of its on point minimalism, the high intensity stacatto synths and the catchy vocal line from Any. It's not easy to do big tracks without big basslines - but that's what K.A.L.I.L. and Any Mello truely achieved with this one.
Revolved is a track I signed already last year and since then K.A.L.I.L. has been perfecting everything about the track from small details to bigger arrangement improvements. This track has that big bassline that sits right in your face. It also has the right build for those peakttime moments in the clubs. I have been playing "Revolved" a lot over the past months and people go crazy for those big bass drops.
We are honored to have another great producer join the Noir Music family and proud to have another belter of a release ready for you.
